Summary

Business operations lead experienced in product delivery, workflow consistency, cross-functional coordination, governance, business systems, analytics platforms, Agile delivery, customer-facing launches, and operational programs.

Experience

Salesforce

USA

Portfolio Governance & Process Improvement Analyst

Apr 2025 – March 2026

- Powered product delivery by translating V2MOM priorities, PAM findings, and QBR insights into governed roadmaps.
- Coordinated cross-team operating rhythm by evaluating strategic value, capacity, risks, dependencies, and resources, guiding leaders on portfolio tradeoffs across systems, operations, and controls during quarterly prioritization decisions.
- Led global Billing Portal execution from initiation through post-launch support, aligning scope, controls, communications, and readiness.
- Built AR Operations portfolio governance using roadmaps, milestone trackers, PMO alignment, executive reporting, backlog refinement, and biannual prioritization cycles, sustaining 85% green deliverables across supported workstreams.
- Developed capacity planning connecting project demand, implementation effort, SME constraints, dependencies, and BAU commitments.
- Coordinated AR Operations requirements, validation, issue resolution, and readiness with Systems and UAT teams, strengthening stakeholder execution for business-system releases and reducing implementation friction.

Market Maker CRE

USA

Product Operations & Program Analyst

Jan 2025 – Apr 2025

- Powered product delivery by expanding ownership across business analysis, product execution, and strategic initiatives.
- Coordinated operating rhythm across development, product, sales, marketing, CTO, and CSO stakeholders, aligning timelines, priorities, risks, and company growth goals in a startup environment.
- Validated data accuracy and platform functionality through test scripts, strengthening reliability for real estate analytics users.

Business Systems & Product Analyst

Aug 2024 – Dec 2024

- Powered startup execution across product, finance, operations, internal systems, and technical growth initiatives.
- Aligned development, sales, marketing, CTO, and CSO stakeholders around technical delivery and business priorities, accelerating new feature execution and improving clarity across growth initiatives.
- Managed JIRA-based project lifecycles, sprint planning, milestones, deadlines, and deliverables across multiple initiatives.

Vista Research Services

USA

Product Analytics & Automation Analyst

May 2024 – Apr 2025

- Powered product delivery by defining requirements, prioritizing roadmaps, and managing analytics-platform delivery milestones.
- Managed Agile delivery cadence through JIRA sprint planning, backlog prioritization, timeline tracking, and execution coordination, aligning product development with business priorities, requirements, and delivery goals.
- Governed scope, budget, resources, timelines, and risks while negotiating priorities with Vista's president.
- Built client-facing visualizations translating fraud-detection outputs and survey analytics into actionable insights, helping clients interpret response-quality risks and make confident business decisions.

LTIMindtree

India

Agile Delivery, BI & Quality Analyst

Aug 2021 – Aug 2023

- Drove release quality for a business-critical reinsurance web application supporting client-facing delivery.
- Standardized validation workflows, defect reports, test cases, scenarios, and structured testing practices, improving consistency, traceability, and quality across business-critical application delivery cycles.
- Strengthened release readiness by validating defects, coordinating fixes, and reducing production deployment risk.
- Improved Agile SDLC efficiency by 60% through sprint planning, backlog prioritization, Scrum practices, risk management, and stronger delivery rhythm across stakeholders and release cycles.

Skills

Methods: Agile delivery, Sprint planning, Backlog priority, Roadmap planning, Risk management

Operations: Product ops, Business ops, Portfolio governance, Release readiness, Customer comms

Analytics: KPI reporting, Dashboarding, Data quality, Test validation, Executive reporting

Systems & Stack: Business systems, SaaS ops, Workflow automation, Implementation governance, Analytics platforms

Tools: JIRA, Billing Portal, Roadmap trackers, Testing frameworks, CRM automation

Education

M.S. Technology Management – University of Illinois, Urbana Champaign

Aug 2023 – Aug 2024
